

Mexico's Premier Adventure Company

WHALE PHOTO SAFARI

CAPTURE THIS MOMENT AND JOIN US IN AN ADVENTURE THAT YOU'LL REMEMBER FOREVER!

A photo can capture a single moment in life and this specialized excursion is designed to have multiple opportunities to shoot the magic moment when you encounter the magnificent wildlife of Banderas Bay.

Each winter, Humpback whales migrate south from their Arctic feeding grounds to breed and rear their young in the sheltered waters of Banderas Bay, making it one of North America's premier whale watching sites.

We will venture along the breeding grounds aboard our comfortable, inflatable boats, which are the perfect mode of transport for whale watching. The itinerary remains flexible to make the most of your whale and wildlife sightings.

Whales, dolphins, manta rays, turtles and sea birds, such as the Blue-footed boobies and frigate birds are among the wonders you will spot during your day. Our Whale Photo Safari, led by expert guides, is designed to offer travelers a closer look at the world in which these magnificent animals live. It is an unforgettable experience and an unparalleled opportunity to photograph these impressive animals in their natural environment.

- Tours runs from Dec 15th until Mar 31st.
- Tour includes Light snack & open bar (non-alcoholic beverages).
- This tour is conducted aboard small inflatable speed boats to ensure maximum comfort and visibility.
- There are no bathroom facilities on these boats.
- We recommend you wear bathing suit, sunscreen, towel, light sweater, hat and your camera.
- Duration: Approximately 4 hours.
